United States Marshall - Savannah----------232-4231**
Maintenance Emergency - after hours, weekends,
& holidays----------245

* This number is to be used only for reporting fires.

** Outside numbers.

TAMPERING WITH TELEPHONES

Telephone instruments, wiring, etc., must not be tampered with by employees of this Medical Center. When desiring relocation, installation, or discontinuance of telephone service, advise the Chief, Medical Administration Service (136C), by memorandum of the changes desired. Any relocation of desks which leaves the telephone wiring exposed as a safety hazard may result in the telephone being disconnected until an order can be processed for its proper installation.

FIRE ALERT

Do not call the operator during a fire alert except in case of an emergency. When a fire alert is sounded, Engineering Service will announce its location to certain selected personnel by pager. Other personnel with pagers can hear this information by placing their instruments in a receive mode, ie, such that static is heard.

SERVICE DIFFICULTIES OR DEFECTIVE EQUIPMENT

Report any difficulties to either the operator or Chief, Office Operations Section (136C), extension 238.

USE OF OFFICIAL TELEPHONES

The use of telephones is restricted to conducting official business only, except in cases of emergency. All personal calls, incoming and outgoing, should be made over public pay-station telephones at various locations throughout the Medical Center. Employees should make every reasonable effort to discourage relatives, friends, and associates from calling about non-emergency matters during duty hours.

INTEROFFICE CALLS

Consult directory for correct number. Listen for dial tone and then dial the number.

LOCAL CITY CALLS

Consult the city directory for the number desired. On non-restricted telephones, dial "9", listen for the dial tone, and then dial the number. Only in cases of emergency may restricted telephones be used for outside calls; dial "Operator", explain the emergency, and request an outside line.

TOLL AND LONG DISTANCE CALLS

No direct-dial long distance calls are to be made from official VA telephones. Employees placing such calls will be billed.

All toll calls from VA telephones must be made through the VA operator. Before placing the call, gather all available information pertinent to the subject to be discussed. Dial "0" for the VA operator for assistance in placing the call. Toll calls should not be made if any other less expensive means of communication will suffice. Teletype service is available and is recommended for use whenever possible.

TRANSFERRING CALLS

On incoming calls, you may signal the operator to transfer the call to another telephone by moving the receiver hook down slowly several times and waiting for the operator to answer. Outgoing calls and interoffice calls cannot be transferred to another telephone since they are completed with automatic dialing equipment.

FEDERAL TELECOMMUNICATIONS SYSTEM (FTS)

The FTS for this Center is 259-0011.

POLICY:

1. Telephone users will exercise good judgement in the use of telecommunications service and official telephones. Federal Telecommunications System and commercial telephone calls will be for the conduct of official business only.

2. All long distance calls will be placed on the Federal Telecommunications System except emergencies. Calls will be placed by authorized personnel only.

3. FTS calls should be held to three minutes where possible, so as to prevent network circuits from being tied up unnecessarily. Pertinent information should be available so that calls may be completed promptly.

4. If it is necessary to make a long distance call through the commercial system, the call must be placed through the Center's switchboard. Commercial long distance calls are not to be dialed direct.

5. The current FTS Telephone Users Guide will be used as a ready reference for using FTS facilities.

6. When requested by an operator to furnish the FTS ID symbol, the caller must respond with the proper code number. This code number is confidential and should not be divulged to anyone other than an FTS operator who is sampling a call.

7. Report trouble with FTS service to the Center operator by dialing "O" and furnish the following information:

   (1) The telephone number and location of the dialed telephone.

   (2) Brief description of the trouble encountered, such as "noisy," "no ring," "echo," or "cut-off."

RADIO PAGING SYSTEM

To transmit a message from a station telephone to a paging receiver, dial 6 plus the three-digit call number of the receiver. You will have 4 seconds to dial the three-digit number after you dial 6. You will then have 12 seconds to transmit your message.

To begin use of the paging receiver, switch it on and depress the squelch button to clear the static noise. After a message has been received, it is necessary to depress the squelch button to clear the receiver.

After 8 hours use, the paging receiver should be turned off and placed on the charger until it is needed for use again.

WHEN A NUMBER IS DIALED INTO THE PAGING SYSTEM NO ONE ELSE IS ABLE TO DIAL INTO THE SYSTEM UNTIL THE TELEPHONE IS HUNG UP PROPERLY.

Any trouble with the paging equipment should be reported to the Chief, Office Operations Section, Room E-267, Building 5-B, telephone 238.

The call numbers and personnel assignments are as follows:

FIRE ALARM SIGNALS

The fire alarm signal will indicate the area in which the fire is located.

One blast of the whistle will be blown to give a general alarm.

Each signal of short blasts for zone identification will be repeated three times.

Zone Identifications are as follows:	General Area:
Zone 1 - One short blast of the whistle	Buildings 1 & 2
Zone 2 - Two short blasts of the whistle	Domiciliary area, Apt. Building 35, Surgical area, NHCU area
Zone 3 - Three short blasts of the whistle	Buildings 3, 5, 7, 9, 11, 13, 15, 17, 19
Zone 4 - Four short blasts of the whistle	Housekeeping quarters, BOQ, Nurses quarters, Pool area
Zone 5 - Five short blasts of the whistle	Laundry, Steam plant, Engineering shops, Sewage plant, etc.

ALL CLEAR - ONE LONG BLAST OF THE WHISTLE
